Eunice Logan (November 17, 1953 - November 19, 2016)
Stage 4 Ovarian Cancer

"With their top national ranking, the UK Markey Cancer Center can offer those diagnosed with cancer world-class doctors, top-level cancer research and clinical trials, and cutting-edge technology not offered elsewhere in Kentucky.

However, when my wife Eunice's doctor said, "We are looking at a cancer situation here", I learned that the greatest thing Markey has to offer is HOPE. As Kentuckians, we are fortunate to have one of the nation's leading cancer centers, with more than 20 affiliate locations, right here in our own backyard. "

WHY SUPPORT MARKEY?

With an estimated 26,500 new diagnoses of cancer in 2020, Kentucky has the highest rates of cancer incidence and mortality in the United States.

Markey Cancer Center is Kentucky's ONLY National Cancer Institute-designated center, giving them access to cutting edge clinical trials, research and therapies not available anywhere else in the state.

For the fifth year in a row, UK HealthCare has been named the #1 hospital in Kentucky by U.S. News & World Report, with our own Markey Cancer Center ranked among the top 50 cancer centers in the nation.

There are now 21 Markey Affiliate Network hospitals throughout the state, allowing cancer patients in Kentucky and the surrounding states access to excellent cancer care.
